# 150W Portable solar blanket for camping with bracket

The 150W Portable Solar Blanket for Camping with Bracket is a high-efficiency, foldable solar panel designed for outdoor enthusiasts. It features premium monocrystalline cells, delivering robust power to charge devices like laptops, phones, cameras, and portable batteries. The adjustable bracket ensures optimal sun alignment for maximum energy output. Lightweight, durable, and water-resistant, it's easy to set up and ideal for camping, RV trips, or emergencies. Equipped with USB, DC, and Anderson outputs, it offers versatile charging options. The compact design and carrying bag make it a portable and reliable power solution for off-grid adventures.

### Product Features:

- 1.Portable Design:** The solar panel is often foldable or designed to be compact, making it easy to transport. The accompanying bag usually has handles or straps for carrying.
- 2.High Efficiency:** The panel uses high-efficiency monocrystalline or polycrystalline solar cells to maximize energy conversion from sunlight.
- 3.Durability:** Made with robust materials to withstand outdoor conditions, including water-resistant or weatherproof fabric for the bag and rugged construction for the panel.
- 4.Compatibility:** Designed to be compatible with various devices and power stations, often including adapters and cables to connect to different input ports.
- 5.Smart Charging Technology:** Features such as MPPT (Maximum Power Point Tracking) controllers or smart charging algorithms to optimize power output and efficiency.
